

## Who We Are

Based in London, England and with many years experience, **Data Solution** specializes in various fields of web designing including graphic designing, web programming, web consultancy, web hosting, website management as well as website maintenance. Being an experienced and respected web designing company, we completely understand your need for uniqueness and thus we thrive to provide you with content that is not only original but also creative at a much lower price than our competitors.

The main reason that we offer such lower prices, to not only our existing customers but also our new customers, is that we are taking advantage of offshore outsourcing for our development operations to London, England. This offshore operation has reduced the distances and enabled us to communicate with people thousands of miles away, within a heartbeat.

### Personal Touch

Being a small company we at **Data Solution** are able to give our customers a much personalized web content than our competitors in the field. We keep our customers in direct contact with our web designer and developer to ensure that they are working in the right direction, so that our customers are fully aware of the status of their projects through mock layouts and test pages. We have a close relationship with all our customers and there is always someone to whom they can talk whenever the need arises.

### Global Reach

We provide our services to customers from United States, Canada, UK and Balkans. We also take advantage of the internet so that our clients are able to contact us from anywhere in the world, should the need arise. You can read our Step-by-Step guide in order to understand how we work.

### Global Team

We have a global team that can meet you in person anywhere to close the deal.
